CRUDE FIBER not less than 5.00%

INGREDIENTS

Whole corn, food-grade
green peas, apple scent.

Nutritional Features & Benefits

Our Pro/Max Supplement Blend is a true 50% corn / 50% peas mix that is designed to be fed out of a broadcast feeder; thanks to the texture of the grains, it will not clog your feeder. The Pro/Max Blend utilizes the same apple scent that is in the Mumme's deer corn to attract your wildlife. Pro/Max also provides a 14% protein content during the season so you are able to keep your protein supplement program going all year long.
