INGREDIENTS

Note: ingredients differ by manufacturing plant

Processed Grain By-Products, Plant Protein Products, Molasses Products, Calcium Carbonate, Salt, Vitamin A Supplement.

DIRECTIONS:

Feed 1 to 9 pounds per head daily to beef cattle along with adequate quantities of forage. The amount fed will depend on forage quality, physiological status of the herd (gestation versus lactation) and body condition.

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. USE ONLY AS DIRECTED.

Product Features:	Product Benefits:
Supplemental Protein or Energy for Beef Cattle on Forage Based Diets	Increases low-quality forage intake and utilization
Modest Amounts of Trace Minerals Added	Flexible; allows producers to choose mineral program based on mineral needs of the herd
Vitamin A Fortified	Extra Vitamin A for optimized animal health and performance
Medicated Options Available	See individual product pages

IMPORTANT:

Follow these management practices:

1. Monitor body condition of cattle on a regular basis.
2. Recommended feeding rates should be adjusted depending on cattle body condition.
3. When making a ration change, allow 7 to 10 days for animals to adjust to the new ration.
4. Provide adequate feeder space for each animal.
5. Provide mineral and salt free choice.
6. Provide fresh, clean water near the feeding area.
