Nutritional Features & Benefits

Mumme's protein supplement feed can be fed to all stages of deer, antelope and wild sheep and is manufactured using top notch grain products to ensure the quality of the feed. 16% protein content helps maintain body condition during the harsher times of the year. Fortified with vitamins and minerals for a complete, balanced diet, this is one of the more affordable options to help you succeed with your protein supplemental program and is a great choice for a variety of wildlife.
